WORK EXPERIENCE

Web Developer

Re Create Technologies

05/2023 - Present

As a Web Developer at Re Create Technologies, I have contributed to a variety of web development projects, focusing on WordPress and Shopify. My experience includes:

- Developing service-based websites, business platforms, and e-commerce sites using WordPress with Elementor, WPBakery, and WooCommerce.
- Building Shopify websites for clothing brands, perfumes, and dropshipping businesses.
- Creating custom projects using HTML, CSS, and JavaScript.
- Working with hosting platforms like Hostinger, cPanel, and Namecheap.
- Managing databases using phpMyAdmin for importing and handling data.

PERSONAL PROJECTS

Education Web Application

- A completely responsive multi-page online education | university | college website using HTML | CSS | SASS and JavaScript.
- github.com/Abdullahkhan-13/Education-Website.git

TinDog Web Application

- Tindog is a pet healthcare website. It's a startup landing page fully responsive and create in Html5, advanced CSS and Bootstrap.
- github.com/Abdullahkhan-13/TinDog

Dice Game

- A simple dice game that randomly shuffles 2 different dice and declares a winner, create in Html | CSS and JavaScript.
- github.com/Abdullahkhan-13/Dice-Game-in-JavaScript
